## SCHOOL REPORT.

---

The school board began the present school year with the admonition to be very economical in the expenditure of the school fund. We think that instruction was unnecessary for we believe that no person in town, if a member of the board, would advocate or practice any other course. Though less than the usual amount of money was raised by vote, yet by means of the surplus remaining from last year we were enabled to have more weeks of schooling in each school than last year, most of the schools having thirty-one weeks.

At the last school meeting Miss Martha J. Boyd was elected a member of the school board but declined to serve. We did not deem it expedient to fill the vacancy.

Most of our teachers are residents of this town and were experienced teachers, with two exceptions. Those two were put in charge of small schools and we have no occasion to express dissatisfaction with their work.

Some of our schools have been interrupted by sickness. The winter term in No. 3 was shortened by an outbreak of sickness among the pupils. No. 8 was closed before the Adams fund income was entirely used as the teacher was sick.

No. 7 was closed one week in the fall as there was considerable sickness among the pupils which it was thought might be caused by some unsanitary condition of the premises. The well was cleaned, a ventilator put into the school room and the premises cleaned up generally. A recent analysis of the well water at No. 7 shows that it is not suitable for drinking, owing to decomposing organic matter. We think that after the well is thoroughly cleaned two or three times an analysis will show a great improvement. The water at No. 8 is not considered fit to use.\* The wells at No. 7 and 8 are both new and the probable reason why the water is bad lies in the fact that the wells are not used enough and the water being shut away from the light and air becomes stagnant and favors the breeding of unhealthy germs.

No change has been made in the text books during the year. The readers have been in use five years and should be changed. We need an appropriation for that purpose. Light repairs have been made wherever needed. Shingles have been purchased for Nos. 4 and 5 houses. Early in the year the school board received a proposition from a citizen, where name is a sufficient guarantee for its satisfactory execution, that if we would furnish No. 2 school room with modern seats and desks he would assume one-third of the expense, with that encouragement we purchased a sufficient number of the Peerless Adjustable seats and desks for the room.

No. 8 should have new seats and desks. We suggest an appropriation for that purpose. Perhaps refitting the school room with more comfortable seats and desks would work needed reform in other directions.

The selectmen report in April, 1896, the number of children between the ages of 5 and 10 years at 209. Boys 107, girls 102.

Number from Londonderry attending school at Goffs, 14.

Number from Londonderry attending school at Derry, 11.

Visits by school board, 56.

Number visitors 594.
